Who are we?

**MORE THAN 150,000
HAPPY TRAINEES!**

INTRODUCTION

We have wide experience in L&D, Management and Human Resources, in addition to the technical fields that are most in demand in the labor market

Our strategic partners are located around the world. We maintain close personal relationships with experts across the globe.

Our training solutions are always designed around client needs, aligned to their strategy, and include case studies specific to the company or industry.

FOR SUCCESS TO BE SUSTAINABLE,

it needs to be built on Excellence. Whether it is the promptness with which we respond to our clients, or the engaging environment we create in our training programs, we strive for Excellence in everything we do.

Ever since the firm was founded, Excellence, in one form or another, was part of its credo. The prospect of doing a good job might help a company climb the ladder of success, but it won't keep the company 'up there'.

OUR TRAINING EVALUATION MEANING AND ITS BENEFITS

Evaluation involves assessing the effectiveness of training programs. This is done by collecting data on whether participants were satisfied with the training, whether they learned something, and whether they can apply those skills in the workplace. Different tools are used to assess training depending on the type of program conducted.

The word change encapsulates almost everything. It is one of the biggest factors contributing to the need for training and development.

PROGRAMS DRIVE REAL BEHAVIORAL CHANGE

Our public training courses are open to participants from any organization who want to focus on their learning and development away from the pressures of day-to-day work. Our list of public courses is regularly reviewed and updated. For the latest list or more information about a specific course, please click the link below or contact us — we'll be happy to assist.

Many training programs offered to corporate clients are followed by smiley feedback sheets and good vibes. However, very few programs drive real behavioral change, and tangible business results. Based on Kirkpatrick Model, we help your leaders reach Level 4 — driving true performance improvement and results.

WHY CHOOSE US?

We are qualified experienced professionals:

We have highly dedicated specialized trainers and consultants, with current industry experience, who will not only meet, but exceed your expectations and take your skills and competencies to the next level.

We Customize:

We are flexible and adaptable to our clients' needs by offering fully customized solutions tailored to achieve their learning goals and address their training gaps.

We turn Your Goal into a Career:

We provide you with all the tools, strategies, and practices you need to elevate your career, explore your potential and create a professional action plan.

We offer an Integrated Reporting System:

We provide an advanced reporting system that is well-designed and aimed at collecting all evaluations on the training courses and instructors to ensure quality delivery and performance and improve the effectiveness of the training and, ultimately, the organizational performance.

It's not a service, it's a real business journey:

We provide consultations to our clients about the projects they need to implement and the competencies they need to develop, in addition to a consulting service after training to ensure that the resources in their organization are ready to implement what has been learned on the ground.

OUR JOURNEY TOGETHER

Our Journey Together (Methodology):

Our journey is designed to provide a comprehensive approach to learning and development, ensuring that our clients achieve their goals and reach their full potential. This approach is based on three key principles: assessment, customization, and implementation.

01- Assessment:

We begin by assessing the needs and goals of our clients. This involves understanding their current situation, identifying their strengths and weaknesses, and determining their desired outcomes.

We use a variety of assessment tools, including surveys, interviews, and international assessments, to gather information and develop a comprehensive understanding of our clients' needs.

02- Customization:

Based on the assessment, we customize our training and consulting solutions to meet the specific needs and goals of our clients. We develop customized training programs that are tailored to the unique requirements of each organization or individual, incorporating real-world examples and hands-on experience to ensure that learners can apply what they learn in their daily work.

03- Implementation:

We work closely with our clients to implement our training and consulting solutions. We provide ongoing support and guidance, helping our clients to apply what they have learned and achieve their desired outcomes.

We measure the effectiveness of our training and consulting solutions and make adjustments as necessary to ensure that our clients achieve the results they are looking for.
